Semi detached house in a very quiet street in Filmski grad, with a small back yard. It spreads over four levels. The ground floor is one large room, a bathroom, a kitchen and a room that used to be a garage. On the lower level, which is in the same level as the small yard due to the leveling of the terrain, there is a small built-in swimming pool. The first floor consists of a spacious fully equipped kitchen interconnected with a dining room, a bathroom and one large room. The last level contains a room that can be divided into two and on the other side, two more connected rooms. One parking space is in the small yard in front of the house. The space needs small renovation. All bathrooms have a shower cabin. The yard is small, but lush. Suitable both for life and work.
