Excellent apartment situated within the residential-business complex YUBC. The location is ideal for work or life, given that it is located within the new business zone of New Belgrade, just a few minutes' walk from several office buildings, Novi Mercator, the Japanese embassy, as well as the Danube quay. Wide boulevards encircle the neighborhood, and a large number of public transport lines enable a good connection with many parts of the city. YUBC itself is full of shops, service companies, and entertainment. The building has 24-hour security service. The apartment is housed on the fifth floor and is characterized by an excellent structure and arrangement of rooms. High quality carpentry, halogen lighting, are all elements that contribute to the quality of the interior. The central room is full of natural light, especially on sunny days. Within this room there is also a kitchen with a bar, nicely equipped. Three more bedrooms are available, two of which have their own bathrooms and wardrobes. The interior allows different purposes and is an excellent choice for a stay.
