A nice apartment situated in a quiet location between the Clinical Center and Slavija Square. This space has a good, classic layout. An entrance hall, equipped with a large American closet, leads to all the rooms. The kitchen is spacious, with a dining area, recently renovated. The apartment has two large rooms and a bathroom with a shower cabin. The parquet is in good condition. Old but well-maintained windows and doors. The apartment is equipped with classic pieces of furniture, but it can be with out furniture and used as a business space.
